

Now Hiring Invasive Species Management Seasonal Field Crew

North Country Cooperative Invasive Species Management Area (NCCISMA) has 3 openings for Invasive Species Management Seasonal Field Crew members. These positions will be part of a 4-person field team, performing invasive species management over a six county area including Lake, Mason, Mecosta, Missaukee, Osceola, and Wexford.

Duties and Responsibilities:

- Perform invasive species management activities in the field by applying herbicides using various techniques including cut-stump and foliar spray, and by mechanical means including hand-pulling, brush cutting, and other physical methods of removal
- Record field data using datasheets, GPS units, hand-drawn field maps, and the Midwest Invasive Species Information Network (MISIN) phone app or website
- Physical labor including educational sign installation, as well as site preparation and seeding/planting activities
- Other duties as assigned, including assisting NCCISMA with volunteer work days, invasive species management workshops, and other outreach events

Eligibility Requirements:

- Pursuing a degree in natural resources or a related field, or high school diploma and at least one-year experience in invasive species management or landscaping
- Must pass exams for Commercial Pesticide Applicator certification in the categories of Right-of-Way, Aquatics, and Ornamentals, within the first month of employment. Study materials will be provided.
- Willing and able to work with handheld gardening tools, backpack sprayers, hand held sprayers, and herbicides to manage invasive plants
- Strong knowledge of plant identification of regional invasive species preferred; otherwise must be willing and able to quickly learn to identify NCCISMA high-priority invasive plant species
- Must be able to work efficiently outdoors in remote areas in varying weather conditions
- Must be reliable and have history of a strong work ethic
- Proven effective team-player

Terms and Benefits:

- Pay Rate: \$10 - \$12 per hour; based out of Scottville, MI
- This is a full-time seasonal position, working 40 hours per week for up to 16 weeks
- Preferred start date of May 14th
- Benefits include paid federal holidays and vacation/sick leave

Other Considerations:

- Field work will take place in all weather conditions, and will likely involve contact with stinging insects and hazardous plants

- Must be comfortable mixing and applying chemical herbicides
- Must be able to carry a 25lb backpack sprayer across uneven or saturated terrain
- Must be able to work flexible hours; work days are generally 8 hour days, with occasional evenings or weekends required

To apply:

Submit a cover letter, resume, and 3 references to Vicki Sawicki, NCCISMA Program Coordinator, at vicki.sawicki@macd.org. Please contact NCCISMA with any questions by email at vicki.sawicki@macd.org or by phone at (231) 429-5072.

**Please submit your application materials no later than
12:00 noon on Monday, April 9, 2018**

*This project is funded by the Michigan Invasive Species Grant Program
